

DIANA ACSENTE D.SC.

Diana is a dynamic and creative Knowledge Management (KM) professional with a deep passion for co-creating win-win-win business opportunities. With a strong foundation in business acumen, Diana consistently places people at the forefront of her approach. She leverages the latest insights from neuroscience studies, Agile Lean practices, KM, and IT as powerful enablers to cultivate an environment that enhances business processes and encourages level-three conversations, co-creation, and innovation.

Diana possesses a unique talent for tackling complex issues and solving intricate problems, a skill honed through her 20 years of experience in diverse corporate and government consulting settings, ranging from small enterprises to Fortune 500 companies. Her extensive training covers a broad spectrum, including KM implementation, Systems Thinking, Business Process Reengineering, IT Systems Development Life Cycle, Project Management and leadership, Team Building, Public Speaking, Business Development, and Coaching.

With a Doctorate in Engineering Management and an MS in Computer Science, Diana brings a powerful blend of technical and management expertise to her work. Her experience as a liaison between IT and business has allowed her to bridge the gap and foster seamless collaboration between these two critical domains.
